

head(banger)phones

a personal music device
by Lee-Sean Huang

a little bit

(heavy metal)

and a little bit

(zen)

head(banger)phones

- A temporary retreat, a sanctuary
- A new way to explore musical space
- A potential must-have accessory
- A way to relax or to freak out
- A performance device for musicians/dancers

(it's **simple**)

Put them on

Listen

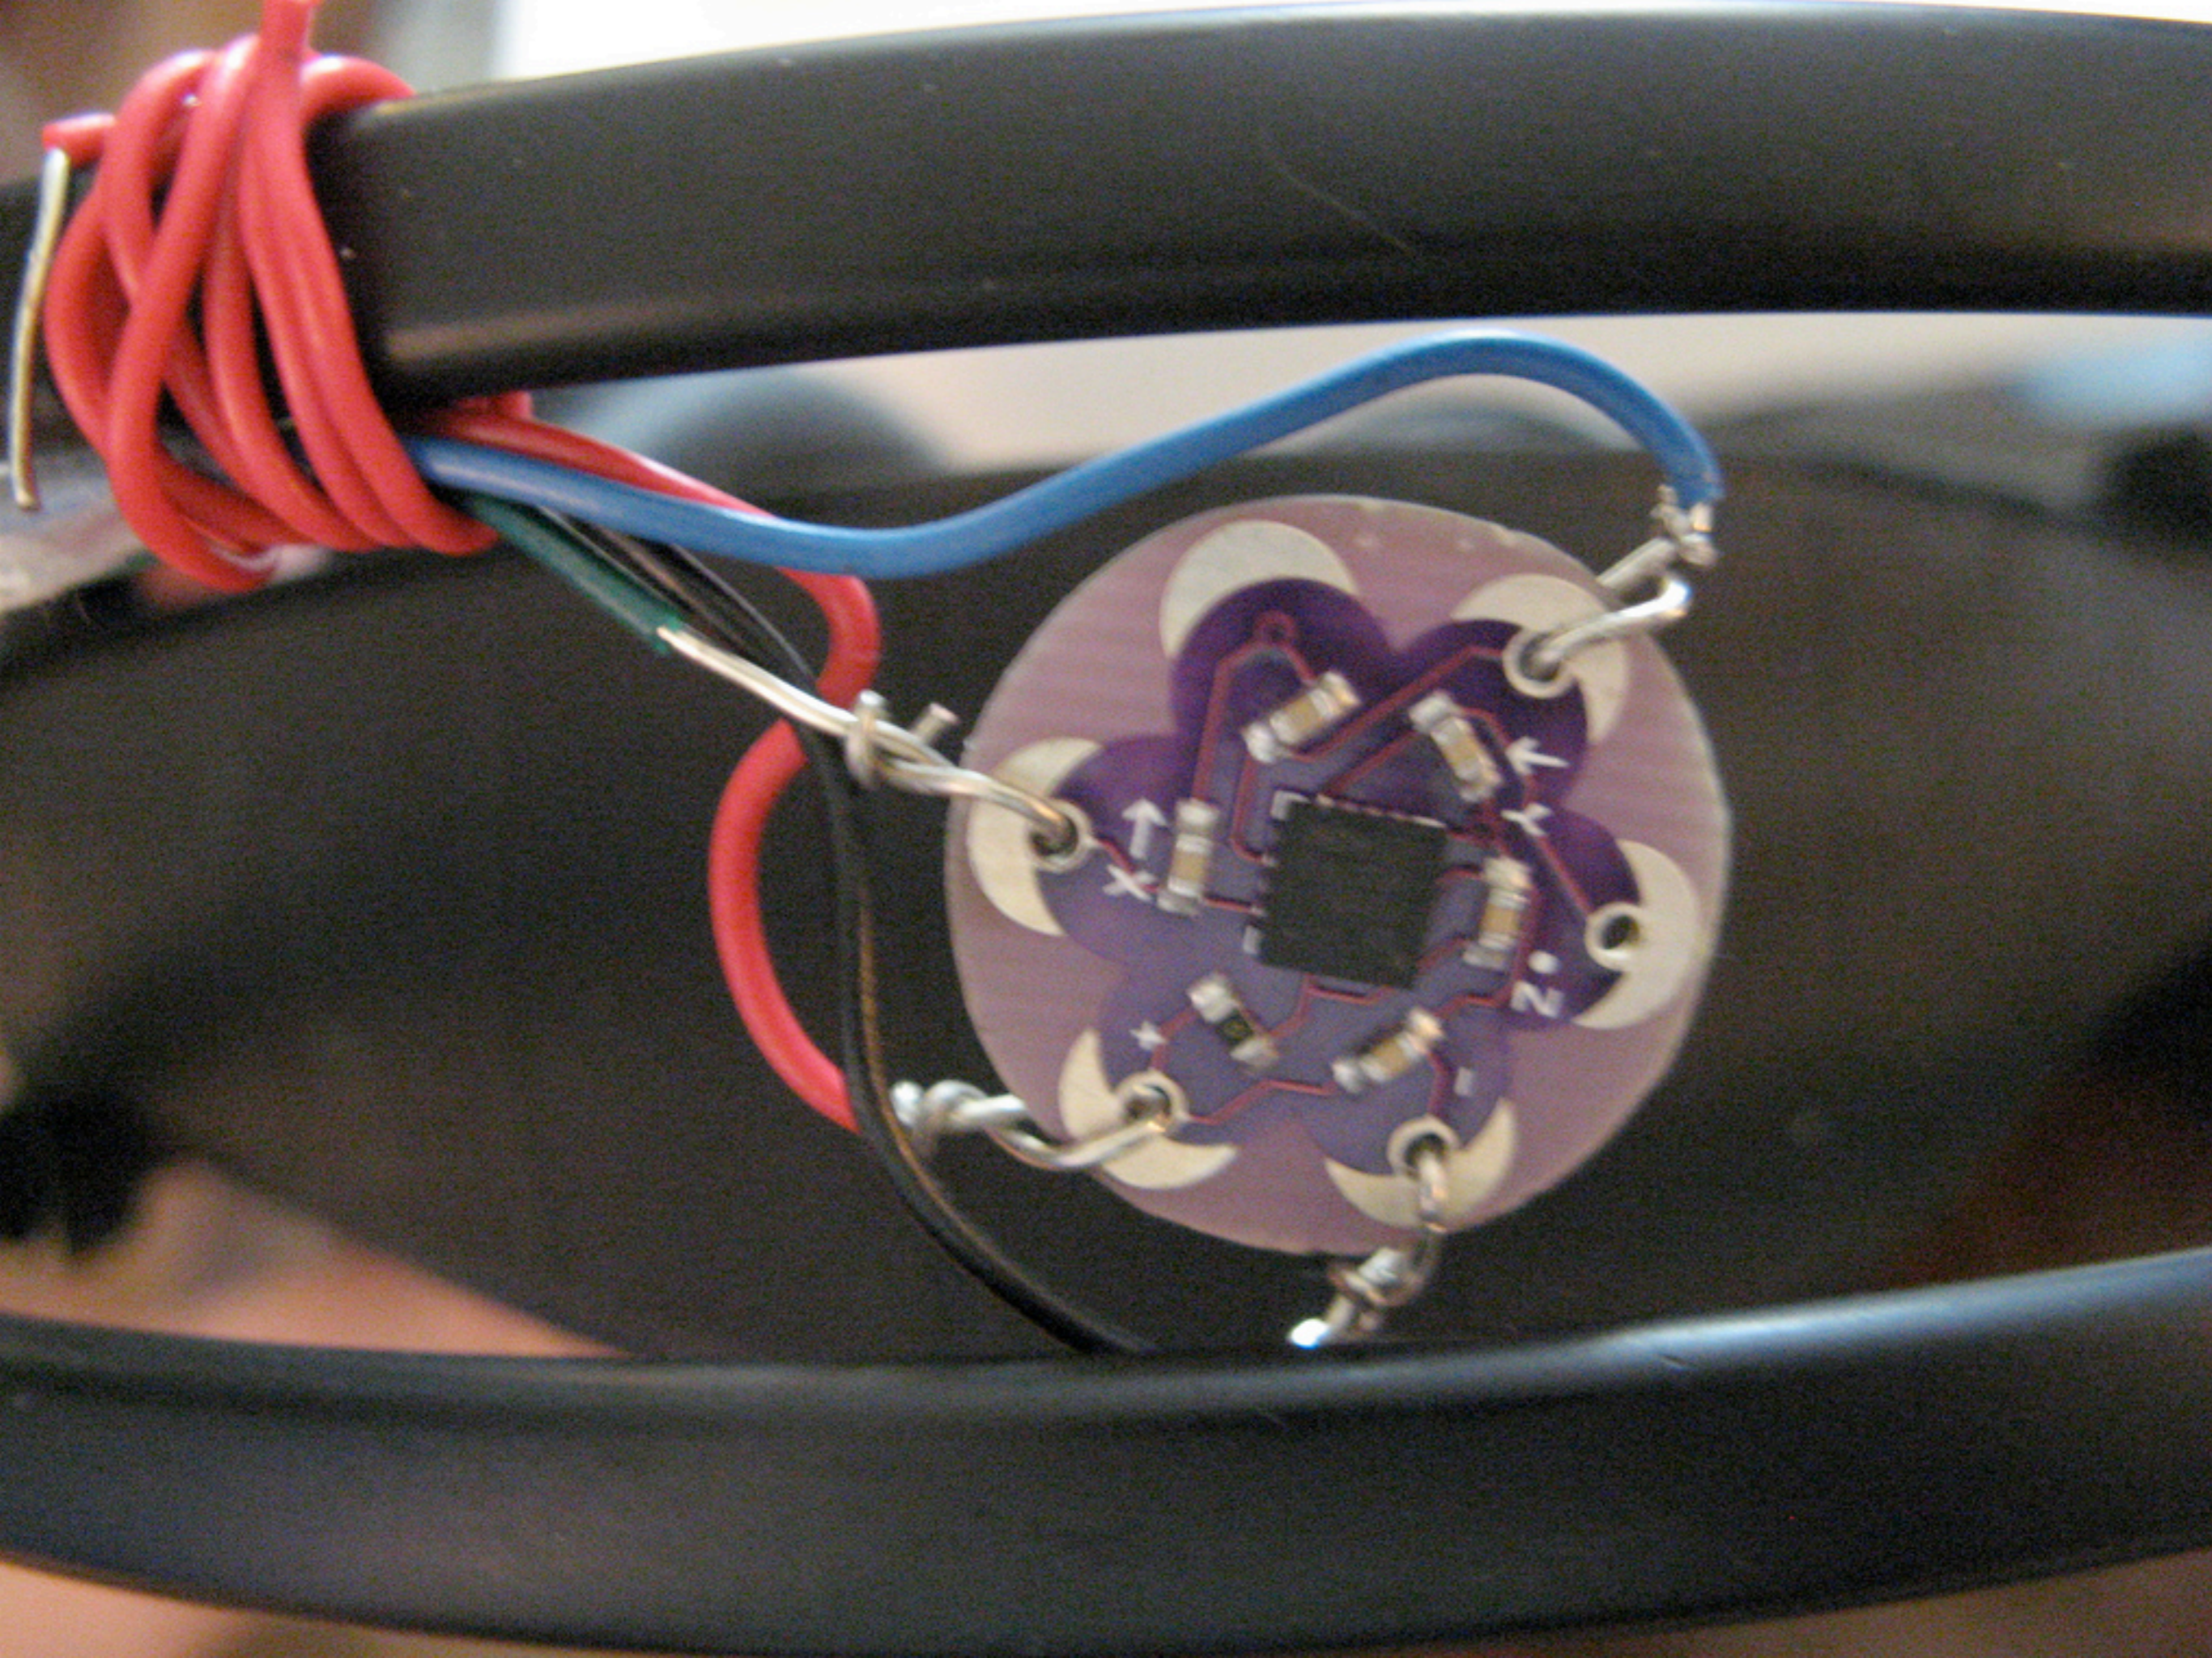

Move your head

Close your eyes

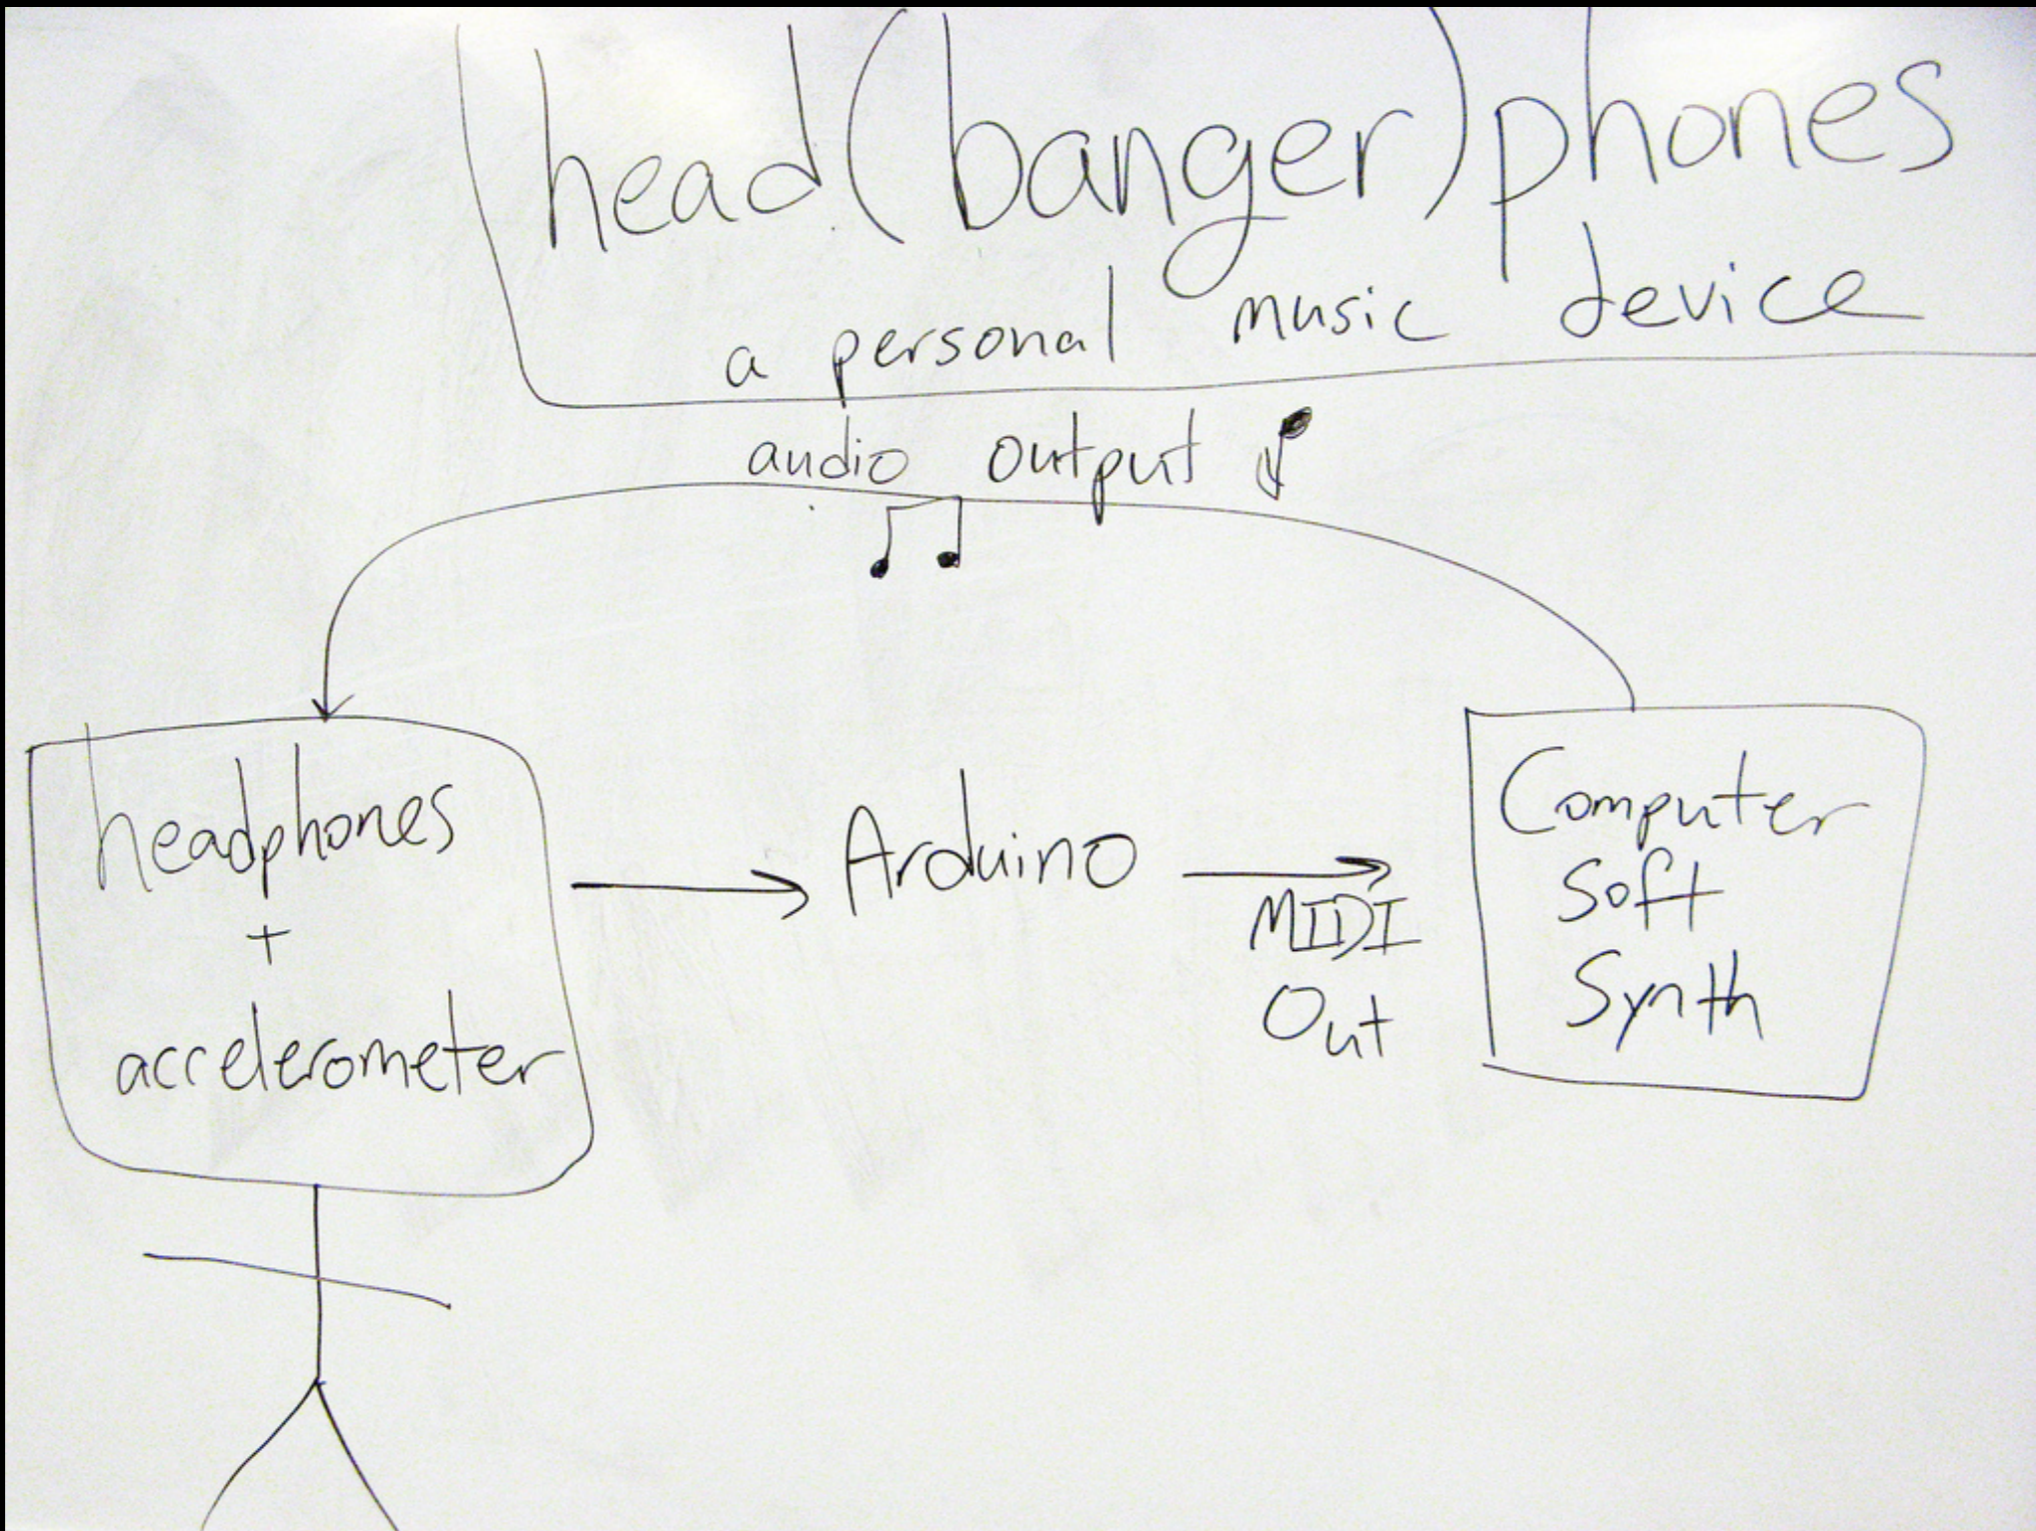

Discover a new
musical space

(close up)

original concept

future **developments**

- Multiple sound libraries
- MIDI implementation
- Longer cord or wireless implementation
- Greater portability
